

PAPER SNOWFLAKE CRAFT

Use this as a template.

Here is what the finished snowflake should look like.

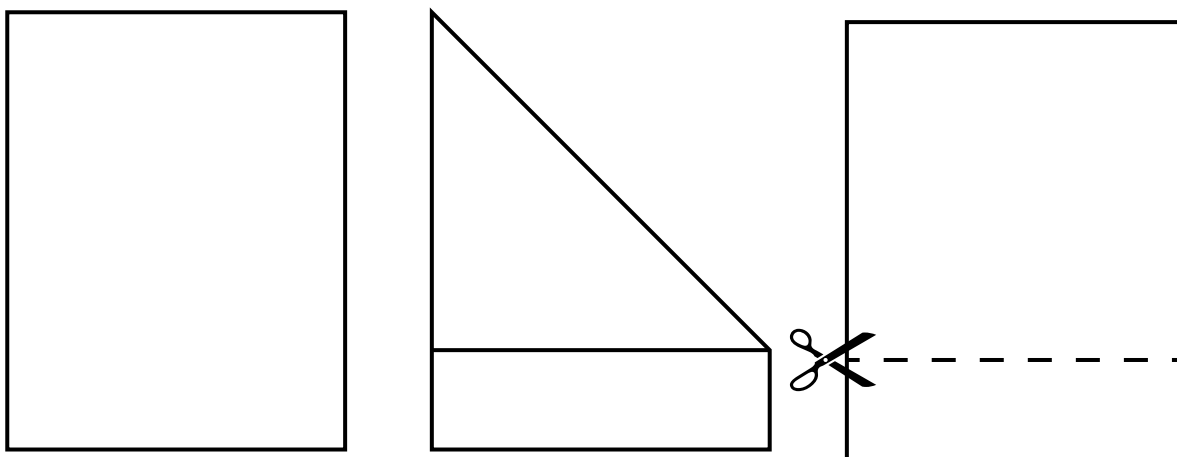

See the next page for instructions!

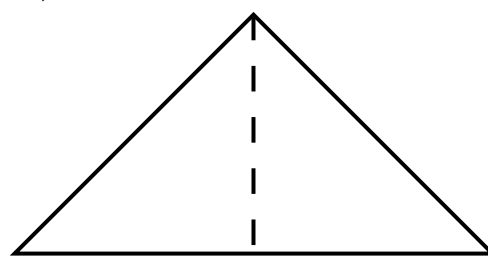

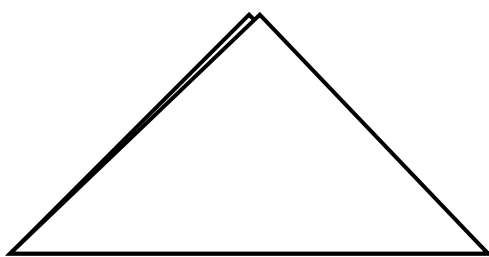

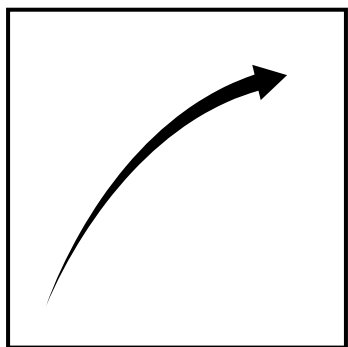

PAPER SNOWFLAKE CRAFT

Here is your step-by-step guide to creating a Boomer Paper Snowflake:

1. If using 8.5 x 11 paper, make it a square by folding your paper diagonally so that the short edge lines up with the long edge. Trim off the excess, creating square.

2. Fold your square diagonally so that the edges match up.
3. Fold that triangle in half to form a crease, then unfold.

4. Fold the outer edges inward to line up with the crease.
5. Fold the diamond shape inward. This final triangle will be the start of your snowflake.
